

Out-of-School Time Programs: Paving the Way for Children to Find Passion, Purpose, & Voice

National surveys of
K-8 parents, teachers, and
program providers

September 2021

Research Purpose

Understand how Parents, Teachers, and Program Providers perceive the role of out-of-school-time* programs in children's social, emotional, and academic development, to help inform communications, programs, and policy

Understanding Expectations

What role do Parents, Teachers, and Providers see out-of-school-time (OST) programs playing in social, emotional, and academic development compared with school and home? What are the connections across settings? What should they be?

Defining Success

How do Parents say they choose a program? How do they define or assess quality? What does a successful program look like?

Unpacking COVID-19 Impact

How do Parents, Teachers, and Providers report COVID-19 has impacted the role of these programs now and going forward?

*We use 'out-of-school time' or OST to describe programs outside of school hours or the regular classroom schedule (see slide 10 for definition.)

Research Methodology

November-December 2020

Qualitative

- ★ **3 K-8 Parent Focus Groups** – parents from a mix of races; Black parents; Hispanic parents in Spanish
- ★ **3 Parent-Child Dyads** – children in grades 4-6
- ★ **2 K-8 Teacher Focus Groups** – teachers with and without OST program experience
- ★ **6 OST Provider in-depth interviews** – representing public schools, youth development organizations, and opportunity-centered providers
- ★ **Virtual sessions** via a screen-sharing platform

February-March 2021

Quantitative

- ★ **Large scale national survey** (n=3,031) recruited through an online non-probability sample with quotas set to ensure demographically representative audiences, followed AAPOR best practices
- ★ **Parents and guardians** of K-8 children in public/public charter schools, with oversamples of Black and Hispanic families (survey offered in English and Spanish), n=2,020
- ★ **Professionals** working with K-8 children as teachers in public/public charter schools (n=631) and OST providers (n=380)

May-June 2021

Qualitative Follow-Up

- ★ **1 K-8 Teacher Focus Group** – teachers with diversity in OST experience, in schools serving more than 50% FRP families and BIPOC students
- ★ **1 OST Parents Focus Group** – parents of children K-8, participating in OST, from a mix of races, with priority on low-income families
- ★ **1 Non-OST Parents Focus Group** – parents of children K-8, not participating in OST, a mix of races, with priority on low-income families
- ★ **6 In-Depth Interviews Among District Leaders** – including School Board members (2), Elementary school principals (3), and a Superintendent (1)

Partner Organizations

Key Insights & Implications

Communications

Parents, Teachers & Providers all see out of school time programs as providing a child-centered experience that is differentiated and highly valuable.

Policy

Parent responses suggest that there is greater demand for these programs than is currently available and participation in high-quality opportunities is not equitably distributed.

Programmatic

The research offers a unique opportunity to build and seek funding for ongoing partnerships between schools and OST providers in supporting Parents' top priority—their children's social and emotional health.

Takeaway

Districts are critical players in ensuring equitable access to high-quality OST programs. New stimulus dollars provide an opportunity to address unmet demand among low-income and rural parents.

COVID Context | What Keeps Parents Up at Night

COVID Backdrop: A Year Like No Other

Parent and Student Perspective

- ☆ “Hard,” “messy,” “challenging”
- ☆ Parents felt whiplash with instructional mode and seeing academic gaps firsthand
- ☆ **Many felt their children “regressed” academically, socially, and emotionally**

“My kid used to be a superstar. Now with this homeschooling ... he cannot catch up; he doesn't want to do anything. He acts like he doesn't know anything.” (Parent)

Teacher/Provider Perspective

- ☆ Exhaustion, frustration, resilience
- ☆ More than any other year, parent engagement was crucial to success, and schools/districts found new ways for more parents to engage, but need was great and constantly evolving
- ☆ **Worried about impact of chronic absenteeism, learning loss, and focused on supporting social-emotional and mental health**

“It's hard. We are open during the school day, getting kids connected online, coordinating. We are trying to connect with teachers and maintain a sense of normalcy.” (OST Provider)

Parent Concerns for Children | Social Connections Top the List

What are you MOST worried about right now? (February-March 2021)

Teachers: Top 3

- #1 Falling behind academically: 39%
- Missing social connections: 30%
- Emotional wellbeing: 26%

OST Providers : Top 3

- #1 Emotional wellbeing: 26%
- Falling behind academically: 22%
- Access to basic necessities: 20%

Parent Concerns for Children | A Deeper Look

Across Race/Ethnicity and Household Income

Most worried about for child (pick 3)	Parents						
	Total	Black	Hispanic	White	<\$37k	\$37-99k	\$100k+
Missing out on social connections and friendships	40%	37%	37%	42%	35%	40%	45%
Having too much screen time	32%	30%	34%	32%	26%	34%	36%
Falling behind academically	26%	28%	28%	24%	27%	27%	23%
Losing their motivation/interest to learn	21%	27%	21%	21%	23%	21%	20%
Their emotional wellbeing	20%	20%	19%	20%	18%	20%	22%
Not learning enough in school because school instruction is limited/Learning less than in other years	20%	23%	19%	19%	20%	20%	20%
Isolation, anxiety, and/or depression	17%	14%	19%	17%	20%	17%	15%

None of the above/not worried	5%	5%	5%	6%	7%	4%	5%

blue/red=statistically significant higher/lower (within row)

Black parents are more concerned than other parents about their children losing interest in learning.

Majority of Parents Prioritize Out-of-School Time Programs That Provide Learning Beyond School

Majority of Families Surveyed Enroll Their Child in an OST Program

65%

of Parents have children in an OST program
Average 2 programs each

Out of School Time (OST) Definition: Programs that your child/children might participate in outside of school hours and/or the regular classroom schedule. These are programs that have a learning or skills component, with organized activities and/or learning opportunities, in addition to providing childcare, and may be offered before or afterschool or on weekends, online, or in person.

Parents Choose Programs Through Multiple Pathways

Parents in qualitative research said there was no single road map for how they find and select OST programs

Most parents selected programs that matched their goals for their child's development, i.e., passion, real-world skills, diversity, social interaction

Some parents did a lot of research, including finding a safe setting with providers they can trust

Others relied on friends' advice or word of mouth

A few alumni enrolled kids in legacy programs

Still others chose the most cost-effective, free, or convenient option

Some were in academic programs recommended by educators to help kids catch up or get ahead

Word of Mouth | Most Common Way to Find a Program

Ways parents researched out-of-school time programs

Delving Deeper into Distinctions

- ☆ The **more you pay**, the more likely you are to do **multiple forms** of research, including **online reviews, tours, and educator referrals**.
- ☆ There is also a **correlation between doing more research and higher perceptions of quality**.

“Extracurricular” Is the Most Commonly Used Name

QUESTION: Regardless of whether your child participates/your experience, how do you refer to these types of programs? Please select the descriptor that you think BEST describes these programs.

22% of non-OST parents are not sure what name they would use, compared to 4% of parents with a child participating in a program

Child Centered | Key Value Proposition for Out-of-School Time Programs

Value Proposition | Key Themes

Based on open-ended qualitative feedback, Learning Heroes created 18 messages based on five themes to test for motivation to enroll in OST programs

Freedom, Relief,
Comfort

Individual Passion
and Purpose

Relationships,
Belonging, Diversity

Preparation for Real
World, Academic
Engagement

Safety, Structure,
Routine

“It’s a chance to work as a team or in a group toward a goal that isn’t academic and to problem solve everyday life situations. It’s an opportunity to form friendships outside of school walls based on similar interests.” (Teacher)

“It’s imperative that my child is in a safe and multicultural space where she can feel like she belongs to a community of people; therefore, she can build lifelong relationships with people that don’t look like her.” (Parent)

Metaphor Elicitation:
focus group participants shared images (examples to the left) that represent their thoughts, feelings, and experiences with OST.

For Parents | Child Centered is a Consistent Theme

Top tier messages/reasons for Parents to enroll their child in an OST program (out of 18)

% say “Very motivating to enroll in OST program”

74%

Expose children to **new experiences, ideas, and perspectives** beyond their everyday home and school lives | #1 for low-income parents (77%)

71%

Allow children to find their **passion, purpose, and voice** | #1 for Hispanic parents (78%)

70%

Celebrate success in areas children love, so they gain the **confidence** they need to excel

70%

Allow children to **interact** with other children of **diverse races, ages, backgrounds, and cultures** | #1 for Black parents (78%)

70%

Allow children to **express and be themselves**, not just fit in

Most motivating messages and language

Children will...

Find | Explore | Experience | Dream

Programs will...

Expose | Encourage | Celebrate

Least motivating messages and language

- ☆ “Help children catch up academically” (except among Black Parents, **72%**)
- ☆ “Help children develop relationships with caring adults and mentors outside their own family and their teachers”

Children will...

Learn | Catch up | Develop

Programs will...

Provide | Equip | Help

Child-Centered Themes Resonate Across Audiences

Very Motivated to Enroll	Parents	Teachers	OST Providers
#1	Expose children to new experiences, ideas, and perspectives beyond their everyday home and school lives 74%	Expose children to new experiences, ideas, and perspectives beyond their everyday home and school lives 72%	Give children a sense of belonging by being with people who see them, look like them, and treat them with respect 67%
#2	Allow children to find their passion, purpose, and voice 71%	Motivate children to get excited about learning, even those who aren't doing well in school 69%	Celebrate success in areas children love, so they gain the confidence they need to excel 62%
#3	Celebrate success in areas children love, so they gain the confidence they need to excel 70%	Allow children to spend time learning things beyond core academics 68%	Allow children to find their passion, purpose, and voice 61%
#4	Allow children to interact with other children of diverse races, ages, backgrounds, and cultures 70%	Allow children to express and be themselves, not just fit in 67%	Encourage children to take on challenges and dream big without fear of making mistakes 61%
#5	Allow children to express and be themselves, not just fit in 70%	Celebrate success in areas children love, so they gain the confidence they need to excel 67%	Expose children to new experiences, ideas, and perspectives beyond their everyday home and school lives 60% Allow children to interact with other children of diverse races, ages, backgrounds, and cultures 60%

- Parents and Providers are also persuaded by messages about diversity and belonging
- Only Teachers rank “learning” statements in a top tier of reasons to enroll in OST

Audiences evaluated 18 messages on motivation to enroll in an OST program. The top 5 per audience are above.

Child-Centered Messages Resonate As The Aspiration

Parents prized “new experiences,” although they can be expensive and hard to come by

The statement is about different experiences children can have. Then they're able to decide for themselves what they like or don't like. If they don't have the opportunity, they don't know. (OST Parent)

I'd love for my child to experience new things. (Non-OST Parent)

Teachers valued new experiences and students finding passion

Where I am, a lot of the inner-city kids have the same routine going to school and going home. If they participate in something they enjoy, they can figure out what they do like. And having somewhere they can be exposed to things would be beneficial.... Some parents don't have \$200 a month to do dance. (Teacher)

District leaders agreed, but were cautious about overpromising

I think the statements are believable. It's what the programs aim for, but don't always get to. (District Leader)

Yes! New experiences. Now if only we could get to the kids who are not participating; we need to reach them. (District Leader)

Teachers & OST Providers See the Value of OST Programs

Slider: Which better describes OST Programs? (Teachers & OST Providers only)

% 3 closest points on an 11-point scale

Defining Value of OST Programs | A Deeper Look

Statistical testing of Teachers/Providers working in schools/programs where enrollment is 50%+ students of color, or 50%+ students receiving Free/Reduced-Price Lunch (FRPL).

	Teachers			OST Providers		
	Total	50%+ students of color	50%+ students get FRPL	Total	50%+ students of color	50%+ students get FRPL
Nice-to-have	16%	13%	15%	8%	7%	9%
Must-have	35%	43%	43%	43%	40%	42%
Non-professional	5%	5%	6%	3%	3%	3%
Professional	39%	49%	44%	48%	47%	45%
Mentoring	22%	24%	24%	11%	7%	8%
Teaching	24%	31%	28%	36%	33%	34%
Ad hoc	9%	11%	10%	3%	4%	4%
Research based	33%	43%	40%	42%	38%	41%
Expensive	6%	6%	5%	3%	3%	3%
Affordable	46%	53%	49%	46%	44%	44%
Competitive	3%	3%	3%	5%	4%	5%
Collaborative	51%	55%	53%	48%	46%	46%
Structure	18%	19%	19%	9%	9%	9%
Freedom	21%	31%	26%	38%	38%	37%
Adult-led	34%	31%	33%	11%	10%	9%
Child-led	15%	23%	19%	37%	40%	42%

☆ Among Teachers, positive impressions of OST are stronger in schools with more Free and Reduced-Price Lunch (FRPL) and/or students of color.

☆ Middle school Teachers are more likely to say “child-led” than elementary school teachers (22% vs 16%).

Child-Centered Indicators Drive Definition of Quality

Child-centric Interests/Skills: most important

#1: Your child seems happy	83%
Your child is gaining confidence	79%
Your child is developing SEL skills	77%
Your child is exposed to new experiences	75%
Your child is pursuing interests/passions	73%

Parents rated **35 items** in **6 categories** on how important each was in determining the quality of their child's primary afterschool program. A follow-up **regression analysis**, determined **how much each category impacts perceptions of quality**.

Quality Drivers for Parents

Environment: most important

Program is fun	76%
Physical safety of environment	73%
Nurturing/welcoming environment	72%

Staff is very important to Parents, but not a key driver in determining quality:

- Staff is trustworthy (82% very important)
- Staff respects you and your child (81%)
- Staff is caring (78%)

Indicators That Drive Parents' Definition of Quality

Across Race/Ethnicity and Household Income

% very important in determining quality of program (top tier)	OST Parents						
	Total	Black	Hispanic	White	\$<37k	\$37-99k	\$100k+
Child seems happy/likes attending the program	83%	79%	86%	83%	77%	86%	82%

An Equity Lens | Access to Child-Centered Experiences

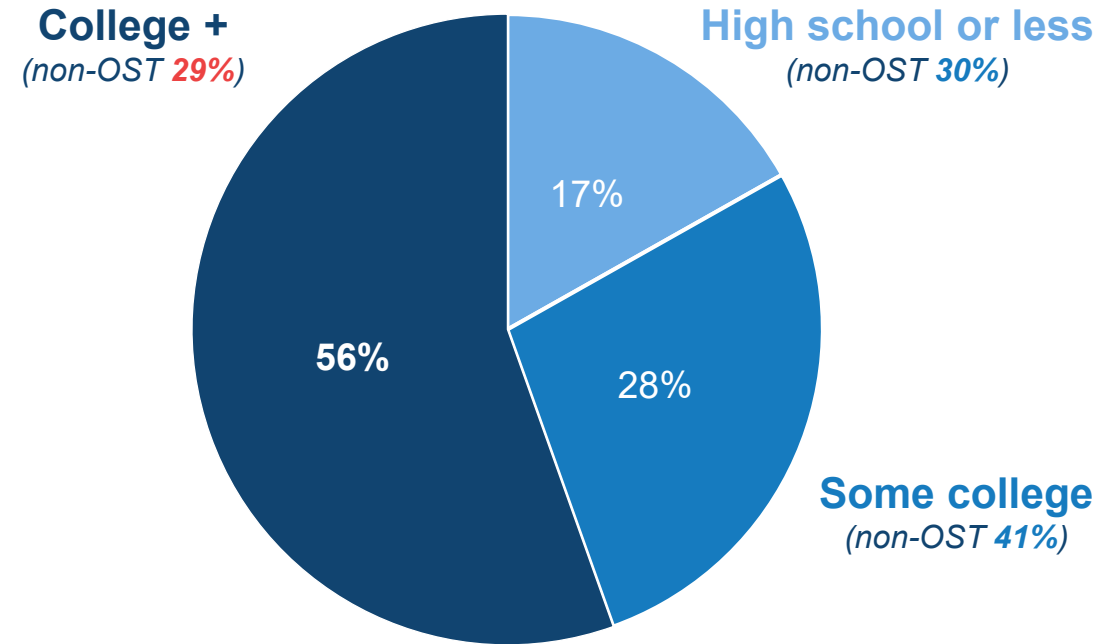

Regardless of Race or Ethnicity, OST Parents Report a Higher Socioeconomic Status

OST Families Report Higher Incomes

\$100K +
Black 17% (vs. **7%**) | Hispanic 22% (vs. **9%**) |
White 46% (vs. **18%**)

OST Parents Report More Education

College +
Black 34% (vs. **20%**) | Hispanic 48% (vs. **27%**) |
White 62% (vs. **30%**)

Ratings of Quality | Perceptions Lower Among Families In Low/No-Cost Programs

OST Parents: Quality of Child's Primary OST Program

Subgroup Distinctions: Quality Ratings Go Up with Cost, Income, Parent Education Level, and Dosage

Rate Program "Excellent"

Free (pay nothing)	36%
Pay \$1-25/week	38%
Pay \$26-50/week	43%
Pay \$51-100/week	48%
Pay \$100+/week	47%
Family HHI \$100K+	45%
Parents with Post-Grad	46%
5+ days/week	54%

Professionals Give Lower Quality Ratings and See Differences by Setting

Teachers on Quality: Program They Know Best

Ratings significantly stronger in **non-Title 1** (36% excellent) vs. Title 1 schools (17%).

OST Providers on Quality: Program they Know Best

Those whose programs were being offered **in-person** (46% excellent) feel better about their programs than those in hybrid (33%) or virtual (25%) settings.

blue/red=statistically significant higher/lower

Qualitative Follow-up Documented Barriers

Parent Perspectives

- Parents identified cost, time, and transportation as barriers that keep them from participating
- Geography was a barrier in rural towns and less affluent districts
- Community outreach helps to communicate that OST programs are welcoming and accessible

“If programs are available, they are going to be very expensive, and that I cannot afford. One city over has programs for certain income levels, but you have to live there.” (Non-OST Parent)

“[My program] went out into the community to events. They wore uniforms, it was all-inclusive, they talked about how everybody was motivated by something different.” (OST Parent)

Educator Perspectives

- Feedback reinforced survey findings about disparities in access to high-quality OST
- High esteem for the concept of OST was coupled with mixed experiences in program quality
- Consensus that districts need to align more with OST, and some are using stimulus funds for it

“Quality really depends on where the school is located and where you live.” (Teacher)

“I think part of it is advertising, and perceptions of being welcoming; not everything is in Spanish.” (District Leader)

OST Parents Report Their Children Doing Better Academically

OST Parents Report Higher Grades

25% all A's

(non-OST **16%**)

OST Parents More Likely to Say Above Grade Level

Above grade level:

Math **42%** (vs. **33%**)

Reading **47%** (vs. **39%**)

(Feb-March 2021 quantitative survey)

OST Parents More Confident about Student Performance

Extremely confident...

Child is prepared for next year

Child is prepared for college

They understand their child's academic performance

OST Parents Report Their Children Doing Better Academically Across Subgroups

Subgroup Distinctions

There are more pronounced differences between White, Hispanic, middle and high-income OST vs. Non-OST Parents on grades

There are more pronounced differences between White, Hispanic, and high-income OST vs. Non-OST Parents on Math assessments

There are more pronounced differences between Black and Hispanic OST vs. Non-OST Parents on Reading assessments

OST Parents More Confident about Fall 2021 than Non-OST Parents

Confident about children being prepared for Fall 2021:

67% Parents in OST, 47% Parents Not in OST

Subgroup Distinctions

- ★ **High-quality OST correlates with confidence** among Parents, Teachers & OST Providers alike. Those who rate their program as “excellent” are more likely to be extremely confident. (Parents **52%**, Teachers **47%**, OST Providers **43%**)
- ★ **Dosage also impacts confidence** – those whose children attend programs 5 or more days a week are most confident. (**46%**)

"I've noticed that kids with out-of-school activities are the ones who get their work done, because they've figured out a strategy to keep it in check. If they have something they are successful at, their level of confidence as a person impacts how they approach learning in a classroom." (Teacher)

OST Parents Report Higher Confidence Across Race, Ethnicity, and Income

Extremely Confident that Child is Prepared for Next Year

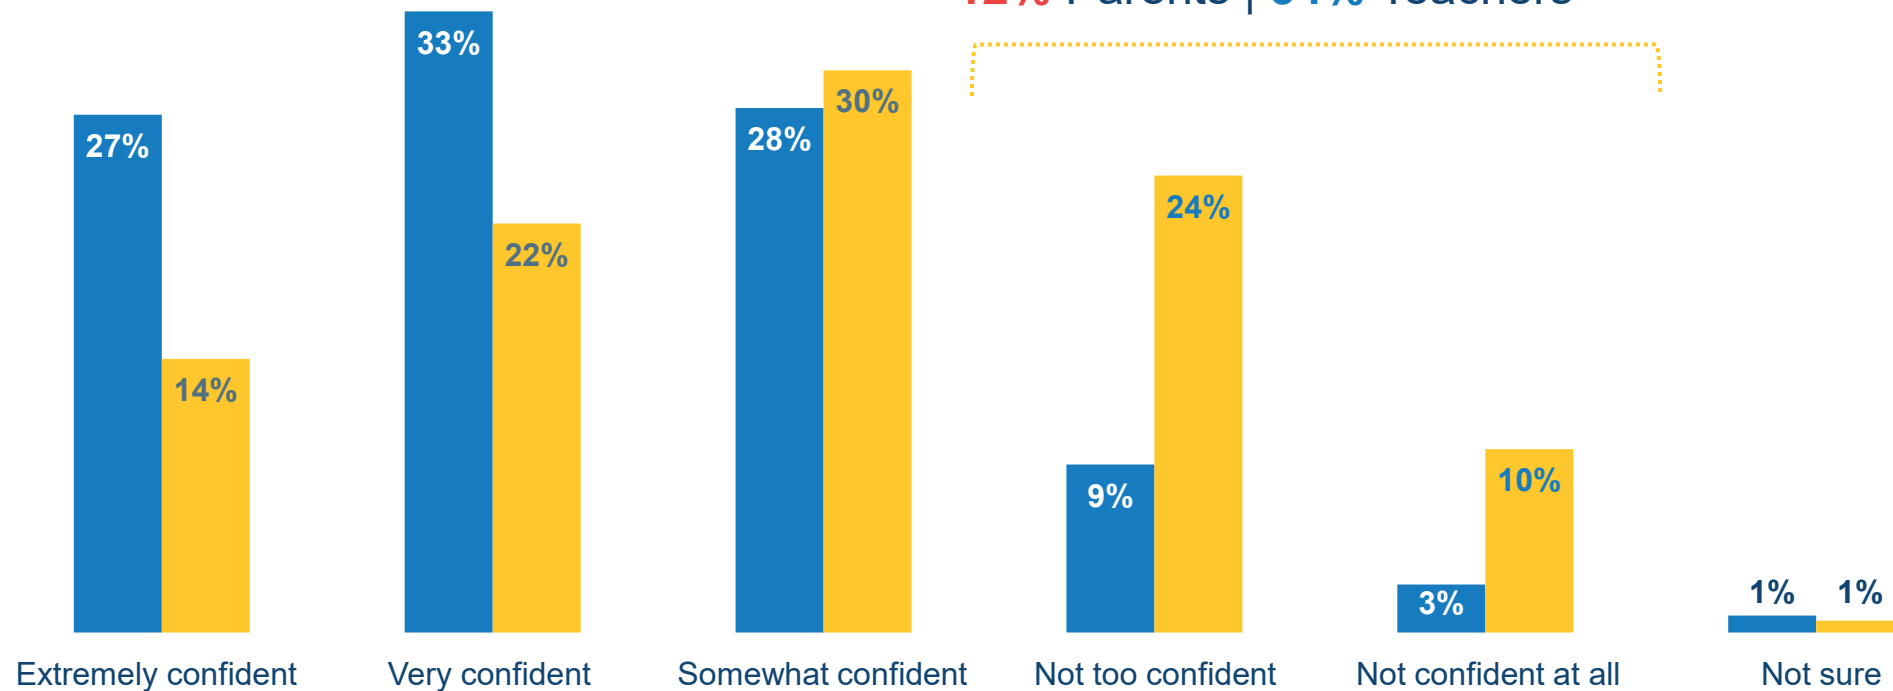

Parents & Teachers Differ in Readiness Perceptions

Confident about children being prepared for Fall 2021:

60% Parents | 36% Teachers

Not confident about children being prepared for Fall 2021:

12% Parents | 34% Teachers

Key= Parents Teachers

Opportunities for Communication Between Parents, Schools & Out-of-School Time Programs

Communications Across Settings | Home+School+OST

Is there an opportunity to enhance communications across settings to support the development of children's academic, social, and emotional learning?

Communication Across Settings: Informal and Depends on the Individual

Parents don't connect the dots between OST and School settings

Teachers describe very informal or no communication with OST programs

OST Providers approach varied greatly across programs

"They have nothing to do with each other. A lot of programs don't focus on school, because kids are in school all day, so OST tries to be more entertaining and they're with different kids than they are in school." (Parent)

"In Open Door, there was not communication between the teachers there and the regular teachers. I don't think they considered the OD teachers, teachers. We were basically childcare to them." (Teacher w/ OST experience)

"When the parents come to pick up the kids, it's, 'hello goodbye.'" (OST)
"I get in front of folks early and often. I survey upfront to know how they like to be communicated with." (OST)

OST Communication with Families | A Deeper Look

Across Race/Ethnicity and Household Income

Parents were asked to think about communications from their child's out-of-school-time program.

	OST Parents						
	Total	Black	Hispanic	White	<\$37k	\$37-99k	\$100k+
Typically share learning goals about child with out-of-school-time program provider (Parents "Yes"; Teacher/Provider "Daily/Weekly")	66%	78%	72%	62%	70%	66%	64%
Communication with parents (<i>"The right amount"</i>)	79%	84%	82%	77%	79%	83%	75%
Very interested in a way to share	48%	54%	53%	45%	47%	49%	48%
Very/somewhat interested in a way to share (Total)	81%	86%	82%	80%	80%	83%	80%
Not interested in a way to share	5%	2%	5%	5%	4%	4%	5%

blue/red=statistically significant higher/lower (within row)

Black and Hispanic parents are more likely to say that programs share learning goals and are more interested in new ways to share.

Teachers Perceive Less Information Sharing Across Settings

Statistical testing of Teachers/Providers working in schools/programs where enrollment is 50% or more students of color, or 50% or more students receive Free/Reduced-Price Lunch (FRPL).

	Teachers			OST Providers		
	Total	50%+ students of color	50%+ students get FRPL	Total	50%+ students of color	50%+ students get FRPL
Typically share learning goals with parents (Parents "Yes"; Teacher/Provider "Daily/Weekly")	61%	66%	63%	81%	85%	83%
Communication with parents (<i>"The right amount"</i>)	69%	59%	64%	58%	45%	45%
Communication with school / OST (<i>"Daily/Weekly"</i>)	40%	47%	44%	76%	83%	84%
Communication with school / OST (<i>"The right amount"</i>)	53%	41%	46%	58%	51%	52%
Communication with school / OST (<i>"Too much"</i>)	10%	21%	15%	32%	38%	38%
Very interested in a way to share	37%	40%	42%	42%	42%	44%
Total: very/somewhat interested in a way to share	76%	80%	80%	88%	88%	90%
Not interested in a way to share	6%	5%	4%	2%	2%	2%

blue/red=statistically significant higher/lower (within row)

Multiple Benefits to More Formal Sharing of Information

“Accurate” picture and supporting learning “across environments” make the strongest case to all audiences.

Parents also say that “teacher insights” to see the “whole child” are helpful, as well as connecting “passion/purpose” with the “skills” children are learning in school. That language speaks to Teachers more than OST Providers

	% Parents very helpful	Teachers	OST Providers
Getting an accurate picture of your child's growth and development so you can most effectively support learning across all environments (home, school, program, etc.)	59%	51%	52%
Giving teachers and program providers new insights on your child's strengths, weaknesses, needs, and interests, to see the whole child for who they are and what they can achieve	57%	55%	47%
Identifying the connection between your child's passions/purpose and the skills they are learning in school, to make learning motivating and meaningful	57%	49%	41%
